

Maintenance Fitters - Manchester

At S Norton & Co Ltd we are proud to be one of the country's leading metal recycling companies.

We are looking for 2 experience Maintenance Fitters at our Manchester site to keep our equipment and machinery in optimum operational condition. This includes heavy mobile and static plant, excavators, wheel loaders, shears, balers and shredders and other relevant equipment used within the metal recycling industry.

Key Responsibilities

- The diagnosis and resolution of breakdowns
- Rapid response to breakdowns thereby minimising the period of downtime
- Conducting preventative/pro-active maintenance tasks
- Ensuring all machinery is maintained to a high standard
- Conducting servicing on heavy plant

Key Competencies

- The ability to work as part of a team
- The ability to work on own initiative
- Excellent time management and organisational skills
- A flexible approach including the willingness to work outside normal hours if required
- The ability to manage tasks and meet deadlines
- An analytical, problem-solving approach

Essential Skills

- Proven track record of working in a comparable role
- The ability to strip down and rebuild hydraulic, mechanical components on heavy machines
- The ability to weld metals of all types including heavy sections and assemblies
- Able to understand technical drawings relating to machinery
- Competent at lifting and slinging
- A working knowledge of diesel engine maintenance
- ONC level qualifications or equivalent
- NVQ level 3 or above in relevant subject

For the purposes of health and safety, applicants should have a good command of English language, literacy and numeracy skills and the ability to read/understand notices and follow instructions.

S Norton & Co Ltd operate a zero-tolerance drug and alcohol policy and successful applicants will be subject to a drug test prior to an offer being made.

To apply please complete our application form (<https://www.s-norton.com/working-with-us/>) and return to recruitment@s-norton.com
